

AND YET COMPLETELY UNFINISHED,  
IN MY HANDS.

WHAT IF AMERICA WAS ONLY  
WRITTEN FOR 32-BIT POWER PC?  
CAN AN UNFINISHED PROGRAM  
BE RECONSTRUCTED?

CAN I WRITE A PROGRAM  
AND GO, "AH, WELL, YOU  
GET THE GIST OF IT."

IF THE TRIAL WAS WRITTEN  
FOR 32-BIT POWER PC,  
MAX BROD WOULDN'T HAVE  
TO BURN THEM! HE WOULD  
JUST BE LIKE, "HOW DO I  
EVEN GET THIS THING OFF  
THE HARD DRIVE?"
